Toronto High Park FC- Technical Director

Positional Game Model - Introduction

This workshop has as a main goal to introduce the coaches to a different approach of watching the game, the Positional Game Model.

During the classroom session we will define what are the main objectives of this style of play based on the operational principles and the key concepts to implement it or analyze it on the field. Afterwards, we will see some examples on how it is translated into the game field with some introductory activities and games.

Attendance is FREE but due to limited space REGISTRATION is MANDATORY.
Check our [Coach The Coaches webpage](http://www.torontosoccerassociation.net) for details on registering for this fantastic learning opportunity! www.torontosoccerassociation.net
